### **DETAILED ACTION**

#### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/10/2008 has been entered.
2. Claims 1-20 and 28 are cancelled. Claims 21 and 30 are amended. Currently, Claims 21-27 and 29-35 are pending.

### **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James C. Kesterson on February 4, 2008.

The application has been amended as follows:

- Claim 21: providing a hard mask patterned over an insulating layer to define a contact hole; forming said contact hole in said insulating layer; filling the contact hole with an ARC layer that also overlies said patterned hard mask and the

insulating layer; depositing and patterning a photoresist layer on said ARC layer; removing portions of the ARC layer and portions of the hard mask not covered by the photoresist layer to repattern said hard mask to define a conductive line trench; removing portions of the insulating layer to form said conductive line trench; removing the ARC layer from the contact hole; and filling the contact hole and said conductive line trench with contact material so that the filled contact hole and the conductive line trench are electrically connected.

- Specification: page 6, line 24 of the application (paragraph [0067]), lines 7 and 8 of the published application) to delete the words “as shown in Fig. 8” and substitute before—reference number 13 not shown.

***Allowable Subject Matter***

4. Claims 21 and 30 are allowed.
5. Dependent Claims 22-27,29,31-35 are allowed based on the allowance of Claims 21 and 30 allowance above.
6. The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination fail to explicitly teaching the following:

... removing portions of the ARC layer and portions of the hard mask not covered by the photoresist layer to repattern said hard mask to define a conductive line trench; removing portions of the insulating layer to form said conductive line trench; with the limitation of Claim 21.

...re-patterning said hard mask subsequent to said step of covering said insulating layer with said ARC layer to define said conductor trench connected to said

contact hole; etching said conductor trench in said insulating layer according to said re-patterned hard mask; (Claim 30).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
